

2004 Cyclic Durability Status

2,800 h of cyclic durability achieved with less than 10% performance loss (at 600 mA/cm^2). [Medium acceleration].

2005 Cyclic Durability Status

4,000 h of cyclic durability achieved with less than 10% performance loss (at $600 \text{ mA}/\text{cm}^2$). [High acceleration].

Cyclic Fuel Cell Stack Durability Status (20 cells)
